

BarudiBali.com

At the popular Baru di Bali website ([www.BarudiBali.com](http://www.BarudiBali.com)), your business can present its products and services to a worldwide audience, with a self-manageable and easy-to-use online company profile.

### About Barudibali.com

BarudiBali.com is the largest Bali tourist information website, featuring over 300 up-to-date company profiles such as accommodations, restaurants, real-estate agents, shops and more. Aside from information about local businesses, we provide our visitors original articles about 'Everything Bali', on-demand Bali videos and detailed interactive maps of the island.

### Introducing the Barudibali.com membership

When you join BarudiBali.com with your business, we will create a company profile for you. After that you will get your login details and from there it is up to you. As our member, you have unique access to alter the information on your company profile. The features of your company profile page include an overview of your business, a photo gallery, opening hours, customer feedback and an interactive map of your business location. In addition to this, you will also find a calendar of events and space to publish information on promotional offers your company might have.

And it doesn't end there; we even **promote your business offline**. Included in your membership is a company listing (with *company name*, *address details*, *phone number* and *link* to your profile) in the monthly publication called **The Mag**, of which **6000** copies are distributed every month.

### Getting visitors to my company profile; how does it work?

1. At BarudiBali.com, visitors search for businesses using our intelligent software. Inclusion of your company in search results of our visitors purely depends on the match of keywords that you can set for your own company profile.
2. At BarudiBali.com, visitors browse our Bali Directory to search for businesses of their interest, which we have carefully categorized under their respective (sub) categories.
3. When people search for Bali information on websites such as Google, they will most likely find your company listed at the top of their results, when using relevant keywords.

**In conclusion**, the BarudiBali.com membership is by far Bali's most affordable and most powerful marketing solution available on the market today, for just **Rp. 2,000,000** per year.
